Brazos Transit District (BTD)
REQUEST FOR ARCHITECTURAL SERVICES

1.1 Purpose of RFQ

Brazos Transit District (BTD) is requesting qualifications for architectural services from firms interested in contracting with BTD for providing professional architectural services for the design of the BTD Lufkin Maintenance. The firm will provide all services necessary to assess and verify existing conditions; provide specifications for furniture, fixtures and equipment (FF&E); AV Equipment; provide computer-aided design and drafting (CADD) documentation; prepare bidding documents; provide permitting services; estimate construction costs; provide value engineering; assist with bidding and award activities; arranging and conducting meetings; perform construction phase services, including construction management; and assist in the warranty review.

BTD proposes to retain a qualified architectural firm or joint venture firm to provide the services described herein. Firms with significant experience in planning and designing projects with similar characteristics will be given prime consideration for this project. Firms with relevant experience and qualifications are encouraged to submit.

It is the intent of BTD to select a single consultant to accomplish all the services outlined in this Request for Qualifications.

It is intended that the selected firm or team accomplish and/or supply all services outlined in this Request for Qualifications. BTD has made no promises or representations and cannot offer, promise or guarantee that the selected firm will be awarded any future contracts to provide additional architectural or engineering services to BTD for this project.

1.2 Scope of Services

Project Name:.....Construction of the Lufkin Maintenance Facility
Project Location:..... 5882 US Highway 59 North, Lufkin, Texas 75901
Schedule:.....Design in Summer 2023 and Construct in Fall/Winter of 2023

The building will be constructed on the existing BTD site at **5882 US Highway 59 North, Lufkin, TX 75901**

Building will be a structure of approximately 24,000 SF with multiple maintenance bays (4 bays preferably) and the occupancy will be business occupancy for the purpose of servicing the maintenance needs of BTD’s operations.

Site Work: Site concrete paving for drives and auto parking and site lighting. Landscaping and irrigation; and storm water storage on site. Extension of city utilities including: gas, water, sewer, fire protection water and power.

Building envelope: Steel structure; concrete foundation; durable metal exterior walls exterior walls; low maintenance metal wall panels; insulated roof system; and windows.

Building interior finishes: Steel framed interior drywall (acoustically rated)

Building systems: Multi-zone HVAC system; LED lighting systems with specialized controls; audio/visual systems and energy control systems. Also, the use of solar panels.

Standard code plumbing systems and fire protection sprinkler systems. Intercom speaker system; security monitoring system; electronic door security systems; and emergency power systems (generator).

The building design needs to utilize new age and green materials when possible. It is BTD’s intent that the successful firm will be involved for the full duration of the phases of the project set forth below. Further the firm’s team shall consist of engineering services for civil, mechanical, electrical, plumbing and structural engineering. The design of the facility shall comply with requirements of all applicable

jurisdiction, codes and regulations, including but not limited to City planning, building, public works, fire departments, International Building Codes, State of Texas Building Codes, Americans with Disabilities Act, Federal Transit Administration (FTA) and other applicable agencies.

The following services will be required from the firm selected:

- Site plan phase
- Schematic design phase
- Design development phase
- Construction documents phase
- Bid/negotiations phase
- Construction management phase
- Project closeout phase
- Post construction warranty phase

The firm shall provide drawings and statement of probable cost at the end of Schematic Design, Design Development and Construction Documents phases for approval by BTB staff. BTB staff will review and provide authorization to proceed or modify design at the end of each of the above phases.

Contract documents shall be suitable for the solicitation of competitive bids by multiple General Contractors. The Firm shall submit to the City of Lufkin documents for Permits.

Services shall include the Firm assisting BTB with the bidding process. This includes attending pre-bid meetings, answering questions that may arise during the bid process, issuing Addenda regarding clarifications to Bidders, taking appropriate action on equal bidding status or substitutions by the bidders, reviewing and subsequent awarding of a construction contract to a bidder determined to offer the best value to BTB.

The proposed project would accommodate future transit needs in the surrounding rural communities in BTB's service area. The findings are based on transit industry standards from the Federal Transit Association (FTA), Circular 5010.1E and the American Public Transportation Association (APTA), APTA-BTB-BMF-RP-001-11 to determine initial requirements. To determine initial space requirements, BTB used the APTA Maintenance Facility Design Calculator. The initial total site requirement based on the document was 4.7-5.7 acres.

Even though the existing property is 17 acres, BTB plans to use any extra non-developed land as green space to preserve the agricultural state in the area. BTB found this important, since the location is in close proximity to ponds, Kurth Lake, and the Angelina National Forest.

The green space would be used as a permeable surface and would catch runoff. This would aid in decreasing the amount of runoff going onto the highway from the property. This information can be used in the future by BTB. The findings are based on industry and development standards. Any additions to the property would not significantly alter the estimated acreage needed. This study does not commit BTB to any action, but prepares the agency for future planning and expansion options. BTB has the right to award all, part or none of the project listed in this RFQ.

Scenario:

- 10-17 acres
- 45 fleet vehicles
- 48 parking spaces
- 23,744 square feet maintenance building with 4 bays
- 14,405 square feet for fuel and bus wash area

- 21,659 square feet for parking spaces and exterior circulation
- 551 square feet for a storage purpose
- Access to major arterial streets, outside of city limits

1.3 FUNDING

Funding for the work described herein will be provided by BTD, which receives funding from FTA and TxDOT.

1.5 SELECTION PROCESS

From a review of the statements of qualification received, BTD intends to evaluate the proposals and possibly invite one or more firms to be interviewed before making a final selection of a firm for the projects. BTD will notify firms of the date and time of the interview. BTD reserves the right to make a selection based solely on statements of qualifications received.

The selected firm whose selection was based on qualifications will then negotiate with BTD on fee and contract conditions. If a reasonable fee cannot be achieved with the firm of choice, negotiations will proceed with the second most-qualified firm until a mutually agreed contract can be negotiated.

Firms will be screened using a two-step process.

Step 1 (Statement of Qualifications) – An evaluation team will rank Firms’ SOQ’s based on the selection criteria and relative weights set out in this RFQ. If decided by the evaluation team it is necessary, a maximum of three firms will be short-listed to participate in Step 2.

Step 2 (Presentation/Interview) – Short-listed Firms may be required to participate in an on-site presentation/interview.

The selected Firm will be the Firm that, in the sole opinion of the Selection Committee, offers the best value to BTD based on the SOQ. However, BTD reserves the right to select a Firm without presentation/interview based solely on the information contained in the SOQ.

1.6 EVALUATION CRITERIA

The criteria used to evaluate the RFQ responses will include, but not be limited to, the following (items listed below are not listed in order of importance):

- A. Qualifications of Firm (20 %)
Qualifications of firm, specifically as they relate to this Project.
- B. Firms Experience on Similar Projects (20%)
Related project experience of the firm(s) and the individuals who would be assigned to this Project.
- C. Available Resources to Complete Project (25%)
This criterion would include the analytical, design tools, personnel, resources or methodologies commonly used by the firm that may be applicable to the project categories. Financial capacity to take on a project of this size.
- D. Responsiveness to the RFQ (15%)
This would include any documents submitted such as concept plans, space planning, and design concepts and other related items.
- E. Professional References (20%)
Provide names and contact information for professional references.

All aspects of the evaluations of the proposals and any discussions/negotiations, including documentation, correspondence, and meetings, will be kept confidential during the evaluation and negotiation process.

Proposals will be analyzed for conformance with the instructions and requirements of the RFQ and Contract documents. Proposals that do not comply with these instructions and do not include the required information may be rejected as insufficient or not be considered for the competitive range. BTD reserves the right to request a Firm to provide any missing information and to make corrections. Firms are advised that the detailed evaluation forms and procedures will follow the same proposal format and organization specified in the Instructions to Firms. Therefore, Firms shall pay close attention to and strictly follow all instructions. Submittal of a proposal will signify that the Firm has accepted the whole of the Contract documents, except such conditions, exceptions, reservations, or understandings explicitly, fully, and separately stated on the forms and according to the instructions of Form for Proposal Deviation. Any such conditions, exceptions, reservations, or understandings which do not result in the rejection of the proposal are subject to evaluation under the criteria of Proposal Evaluation Criteria.

BTD will select for any award the highest ranked proposal from a responsible Firm, qualified under Qualification Requirements which does not render this procurement financially infeasible and is judged to be most advantageous to BTB based on consideration of the evaluation Proposal Evaluation Criteria.

Evaluations of Competitive Proposals

1. **Qualification of Responsible Firms.** Proposals will be evaluated to determine the responsibility of Firms. A final determination of a Firm's responsibility will be made upon the basis of initial information submitted in the proposal, any information submitted upon request by BTB, information submitted in a BAFO if requested by BTB and information resulting from BTB's inquiry of Firm's references and its own knowledge of the Firm.

2. **Detailed Evaluation of Proposals and Determination of Competitive Range.** Each proposal will be evaluated in accordance with the requirements and criteria specified in "Proposal Selection Process".

The following are the minimum requirements that must be met for a proposal to be considered for the competitive range. All of these requirements must be met; therefore, they are not listed by any particular order of importance. Any proposal that BTD finds not to meet these requirements and may not be made to meet these requirements, may be determined by BTD to not be considered for the competitive range. The requirements are as follows:

- a. Firm is initially evaluated as responsible in accordance with the requirements of "Qualification Requirements", or that BTD finds it is reasonable that said proposal can be modified to meet said requirements. Final determination of responsibility will be made with final evaluations.
- b. Firm has followed the instructions of the RFQ and included sufficient detailed information, such that the proposal can be evaluated. Any deficiencies in this regard must be determined by BTD to be either a defect that BTD will waive in accordance with "Acceptance/Rejection of Proposals" or that the proposal can be sufficiently modified to meet these requirements.
- c. BTD will carry out and document its evaluations in accordance with the criteria and procedures of "Proposal Selection Process". Any extreme proposal deficiencies which may render a proposal unacceptable will be documented. BTD will make specific notes of questions, issues, concerns, and areas requiring clarification by Firms and to be discussed in any meetings held with Firms which BTD finds to be within the competitive range.

Rankings and spreads of the proposals against the evaluation criteria will then be made by BTD as a means of judging the overall relative spread between proposals and of determining which proposals are within the competitive range or may be reasonably made to be within the competitive range.

3. **Proposals not within the Competitive Range.** Firms of any proposals that have been determined by BTD as not in the competitive range and cannot be reasonably made to be within the competitive range will be notified in writing, including the shortcomings of their proposals.
4. **Discussions with Firms in the Competitive Range.** The Firms whose proposals are found by BTD to be within the competitive range or may be reasonably made to be within the competitive range, will be contacted by BTD to answer any questions and/or requests for clarifications. Each such Firm may be invited for a private interview(s) and discussions with BTD to discuss answers to written or oral questions, clarifications and any facet of its proposal.

In the event that a proposal, which has been included in the competitive range, contains conditions, exceptions, reservations or understandings to any Contract requirements as provided in "Form for Proposal Deviation", said conditions, exceptions, reservations or understandings may be negotiated during these meetings. However, BTD shall have the right to reject any and all such conditions and/or exceptions and instruct the Firm to amend its proposal and remove said conditions and/or exceptions; and any Firm failing to do so may cause BTD to find such proposal to be outside the competitive range.

No information, financial or otherwise, will be provided to any Firm about any of the proposals from other Firms. Firms will not be given a specific price or specific financial requirements they must meet to gain further consideration, except that proposed prices may be considered to be too high with respect to the marketplace or unacceptable. Firms will not be told of their rankings among the other Firms.

1.7 Additional Instructions, Notifications, and Information

- A. **All Information True** – By submitting a response, Firms represent and warrant that all information provided in the response submitted shall be true, correct and complete. Firms who provide false, misleading, or incomplete information, whether intentional or not, may be excluded.
- B. **Cost of Responses** – BTD will not be responsible for the costs incurred by anyone in the submittal of responses.
- C. **Contract Negotiations** – This RFQ is not to be construed as a contract or as a commitment of any kind. To ensure that the appropriate staff is assigned to the project BTD may make the inclusion of a “key persons clause” a part of the contract negotiations.
- D. **Contract Award**- BTD makes no promises or representations and cannot offer, promise or guarantee that the selected firm will be awarded a contract to provide architectural or engineering services to BTD until approved by the Vice President for Administration.
- E. **No Obligation** – BTD reserves the right to evaluate the responses submitted; waive any irregularities therein; select candidates for the submittal of more detailed or alternate proposals; accept any submittal or portion of submittal; reject any or all Firms submitting responses, should it be deemed in BTD’s best interest; or cancel the entire process.

Item number three (providing additional information) is at the Firm's responsibility to ensure that sufficient information is provided to BTB, so that good faith efforts can be comprehensively evaluated.

I, the Firm, have (YES or NO):

- Yes No 1) Completely filled out this good faith effort form with signature and date,

(8) The contractor will include the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: Provided, however, that in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

Failure by the Contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as BTD deems appropriate. Each subcontract the Contractor signs with a Subcontractor must include the assurance in this paragraph (see 49 CFR 26.13(b)).

The successful bidder/Firm will be required to report its DBE participation obtained through race-neutral means throughout the period of performance.

The Contractor may not terminate any DBE Subcontractor and perform that work through its own forces or those of an affiliate without prior written consent of BTD.

BTB requires prime Contractors to send to BTB copies of checks payable from our Contractors to their vendors. The purpose of our receiving copies of their vendor checks is to verify they are adhering to our contract which stipulates payment to their vendors within 10 days of receipt of payment from us. In order for us to be able to confirm our contractor's receipt of our payment, we will also need to include that our payments to Contractors will either be sent via Fed-X or wired directly to the Contractor.

The Firm or proposer agrees to comply with the requirements of 2 C.F.R. part 180, subpart C, as supplemented by 2 C.F.R. part 1200, while this offer is valid and throughout the period of any contract that may arise from this offer. Rights and Remedies - The duties and obligations imposed by the Contract Documents and the rights and remedies available thereunder shall be in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law. No action or failure to act by BTB or Contractor shall constitute a waiver of any right or duty afforded any of them under the Contract, nor shall any such action or failure to act constitute an approval of or acquiescence in any breach thereunder, except as may be specifically agreed in writing.

3.27 Violation and Breach of Contract

Disputes:

Disputes arising in the performance of this Contract that are not resolved by agreement of the parties shall be decided in writing by the authorized representative of the agency. Rights and Remedies:

Duties and obligations imposed by the contract documents and the rights and remedies available thereunder shall be in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law. No action or failure to act by the Agency or contractor shall constitute a waiver of any right or duty afforded any of them under the contract, nor shall any such action or failure to act constitute an approval of or acquiescence in any breach thereunder, except as may be specifically agreed in writing.

3.28 Severability

The Contractor agrees that if any provision of this agreement or any amendment thereto is determined to be invalid, then the remaining provisions thereof that conform to federal laws, regulations, requirements, and guidance will continue in effect.

3.29 Termination

Termination for Convenience (General Provision)- BTD may terminate this contract, in whole or in part, at any time by written notice to the Contractor when it is in the Government's best interest. The Contractor shall be paid its costs, including contract close-out costs, and profit on work performed up to the time of termination. The Contractor shall promptly submit its termination claim to BTD to be paid the Contractor. If the Contractor has any property in its possession belonging to BTD, the Contractor will account for the same, and dispose of it in the manner BTD directs.

Termination for Default [Breach or Cause] (General Provision)- If the Contractor does not deliver supplies in accordance with the contract delivery schedule, or if the contract is for services, the Contractor fails to perform in the manner called for in the contract, or if the Contractor fails to comply with any other provisions of the contract, the Agency may terminate this contract for default. Termination shall be affected by serving a Notice of Termination on the Contractor setting forth the manner in which the Contractor is in default.

The Contractor will be paid only the contract price for supplies delivered and accepted, or services performed in accordance with the manner of performance set forth in the contract. If it is later determined by the Agency that the Contractor had an excusable reason for not performing, such as a strike, fire, or flood, events which are not the fault of or are beyond the control of the Contractor, the Agency, after setting up a new delivery of performance schedule, may allow the Contractor to continue work, or treat the termination as a Termination for Convenience.

Opportunity to Cure (General Provision)- The Agency, in its sole discretion may, in the case of a termination for breach or default, allow the Contractor [an appropriately short period of time] in which to cure the defect. In such case, the Notice of Termination will state the time period in which cure is permitted and other appropriate conditions. If Contractor fails to remedy to Agency's satisfaction the breach or default of any of the terms, covenants, or conditions of this Contract within [10 days] after receipt by Contractor of written notice from Agency setting forth the nature of said breach or default, Agency shall have the right to terminate the contract without any further obligation to Contractor. Any such termination for default shall not in any way operate to preclude Agency from also pursuing all available remedies against Contractor and its sureties for said breach or default.

Waiver of Remedies for any Breach- In the event that Agency elects to waive its remedies for any breach by Contractor of any covenant, term or condition of this contract, such waiver by Agency shall not limit Agency's remedies for any succeeding breach of that or of any other covenant, term, or condition of this contract.

Termination for Convenience or Default (Architect and Engineering)- The Agency may terminate this contract in whole or in part, for the Agency's convenience or because of the failure of the Contractor to fulfill the contract obligations. The Agency shall terminate by delivering to the Contractor a Notice of Termination specifying the nature, extent, and effective date of the termination. Upon receipt of the notice, the Contractor shall

- (1) immediately discontinue all services affected (unless the notice directs otherwise), and
- (2) deliver to the Agency 's Contracting Officer all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this contract, whether

completed or in process. Agency has a royalty-free, nonexclusive, and irrevocable license to reproduce, publish or otherwise use, all such data, drawings, specifications, reports, estimates, summaries, and other information and materials.

If the termination is for the convenience of the Agency, the Agency's Contracting Officer shall make an equitable adjustment in the contract price but shall allow no anticipated profit on unperformed services. If the termination is for failure of the Contractor to fulfill the contract obligations, the Agency may complete the work by contract or otherwise and the Contractor shall be liable for any additional cost incurred by the Agency. If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of Agency

Upon written notice, the Firm agrees that the Federal Government may suspend or terminate all or any part of Federal assistance if terms of the project agreement are violated, if the Federal Government determines that the purposes of the laws authorizing the Project would not be adequately served by the continuation of Federal assistance for the Project, if reasonable progress on the Project is not made, if there is a violation of the project agreement that endangers substantial performance of the Project, or if the Federal Government determines that Federal assistance has been willfully misused by failing to make appropriate use of Project property. Termination of Federal assistance for the Project will not typically invalidate obligations properly incurred before the termination date to the extent those obligations cannot be canceled. The Federal Government reserves the right to require the refund of the entire amount of Federal assistance provided for the Project or a lesser amount.
