

# Addendum #3

RFP#: PG02172024

Date: 4/26/2024

---

The purpose of this addendum is to answer follow-up questions received since the rehab plans were sent out.

1. Are dimensions and font sizes for signs 1-56 available? **No**
2. Is BTB wanting a specific substrate for the signs? **Something economical, durable and able to withstand the elements**
3. Do the signs need to be reflective? **Possibly**
4. On sheet T101, there is a note stating to only replace hanging signs (150 each). On the last page with the sign schedule, there is another column of 97 signs. Are these included in the pricing? **Price for both**
5. Are the signs to be made of the same material? **Signs need to have a uniform appearance**
6. Are all pavement markings on the garage levels to be new? If so, is removal of old markings required? **Needed on roof top and first level and throughout as needed. Old markings can be removed or painted over.**
7. Is the traffic coating system on Level 2 to be replaced? **Price for this.**
8. How are the expansion joint repairs outside the building expected to be treated? Is the existing joint sealant to be removed and installed with new? **Unknown**
9. Are the walk-off mats inside the terminal to remain or do they get removed and the recessed area filled in with new flooring? **Walk-off mats to remain**
